

GLACIER FJORDS TOUR

Aircraft should use Ward Cove or Mountain Point Route to and from the Glacier Tour area. Aircraft should use the same radio frequency and reporting points as the Ward Cove or Mountain Point Routes.

Pilots are cautioned to remain at least 500 feet away from any person, vessel, vehicle or structure.

Recommended altitudes are 1500' AGL and above outbound and 1000' AGL inbound.

Recommended landing areas:

Reporting points are as follows:

- Punchbowl Cove
- Punchbowl Lake
- Big Goat Lake
- The "Y"
- The Head of Rudyerd Bay
- Nooya Lake
- The Wall
- LeDuc Lake

See Example of this route on the opposite Page.
